

Toyo Denki Seizo Acquires IRIS Certification for Its Rail Vehicle Auxiliary Power Supply Apparatus

Tokyo, November 8, 2013 — Toyo Denki Seizo K.K. (hereinafter Toyo Denki) announced today that it had acquired the International Railway Industry Standard (IRIS) Certification for its rail vehicle auxiliary power supply apparatus.

Based on ISO 9001, the international standard for quality management systems, IRIS was formulated by the Association of the European Rail Industry (UNIFE) as an international standard aimed at ensuring the highest levels of quality and safety in the railway industry. Those engaged in railway-related activities in Europe, including major rail vehicle manufacturers, are encouraged to acquire IRIS certification.

Building on the Company's acquisition of IRIS certification for its auxiliary power supply apparatus, Toyo Denki is working to acquire certification for other components and equipment, enhancing its efforts to promote the global development of its transportation business, and endeavoring to increase the sales of its rail vehicle electrical equipment.
